

WATER WATER

by

Florence Apa

WATER WATER,
What a very special thing you are on Earth.
You are such a liquid that,
Human beings, animals and plants need you,
The most by their own ways.

WATER WATER,
Like Human beings looking fine with their clothes,
they use you for cooking, drinking and other purposes.
Animals drink you and wash with you as well,
So they grow healthy and strong.
Plants also use you to grow well and look green.

WATER WATER,
If you were not here on Earth,
Everything would have died and dried out.
But thank God,
He created you.

WATER WATER,
What a very important liquid you are.
